

Student self assessment of learning skills and work habits Assignment

Why is this assignment relevant?

- Being ready to work in a workplace requires one to be able to assess their abilities and which areas they need to improve on.
- Your assignment is to fill in the student self assessment worksheet to show that you are able to assess your own skills and figure out what things you need to work on to improve your academic success as well as success beyond high school.

Instructions:

- Complete the table provided
- Answer the questions after filling in the table
